## Personal Qualities

---

- **Passion for work and challenges**

When an interesting task or a challenge stands ahead, I work passionately until it is finished.

- **Willingness to learn, communication skills**

These are essential when I work with a new technology or join a team working on a specific project. These skills help me learn everything quickly and effectively in a professional manner.

- **Project management skills, ability to work under pressure**

I have worked on and completed number of web sites for various organisations. Organisations have been very satisfied both with my approach to the work and the final result.

- **Time management and administration skills**

Having worked on many projects, I have successfully completed the projects within the time appropriate in both work and education.

- **Interpersonal skills**

I work successfully as a team member, on some occasions working in small teams and at other times on my own initiative. I do always present cooperative, hard-working and reliable attitude.

## Interests

---

- **Programming simple computer games**

I have written five simple computer games in C++ (with the use of MFC) for Microsoft Windows. Available at <http://files.yanas.cz/games.zip>.

- **Programming in OpenGL**

I have written a C++ application for Microsoft Windows demonstrating main features of OpenGL. Available at <http://files.yanas.cz/opengl-showcase.zip>.

- **Digital photography**

I am interested in digital photography, although I am still a beginner with little time for his passion.

- **Entertainment**

Urban games, various sports, music, films and theatre.
